

U.S. ★ REHAB®

U.S. Rehab Technical Training

February 6-8, 2012 - Dallas, TX

The purpose of this assembly is to set U.S. Rehab Technicians aside from the rest of the Industry, to form an elite National group of Assistive Technology Technicians to acquire the knowledge it takes to do the job in an efficient and timely manner. This program is developed for the service technician who has been working with power rehab equipment for a minimum of one year. This program will expand and strengthen the experienced rehab technician's depth of knowledge and skill. Classes are limited to assure top quality one-on-one intensive training.

On the final afternoon of training, each program attendee will be given a comprehensive exam covering each day of training. Scores from these exams will be used to provide certification recognition seals.

Test Score

90% - 100%

80% - 90%
