

Assistive Technology for the ATP

April 28-29, 2009: Sacramento, CA

September 15-16, 2009: Richmond, VA

Program

This 2-day course will provide an overview of information related to topics that are covered on the RESNA ATP exam. The valuable and comprehensive information presented will reinforce your knowledge base and experience, fill in the "gaps" in less familiar areas of assistive technology (AT) and provide indications for further study. Successfully passing the ATP exam will allow you to be compliant with Medicare's Quality Standards and with the requirements of the Power Mobility LCD.

The program provides 12 Continuing Education Credits (CEC's) through IACET.

The course will cover the following:

- Anatomy, biomechanics and disability
- Service delivery
- Seating and wheeled mobility
- AAC, EADL/ECU and computer technologies
- AT for sensory impairments
- Funding and legislation
- Test-taking strategies

Please note: This course is a review of information and does not cover actual test questions from the RESNA exam.
